TB
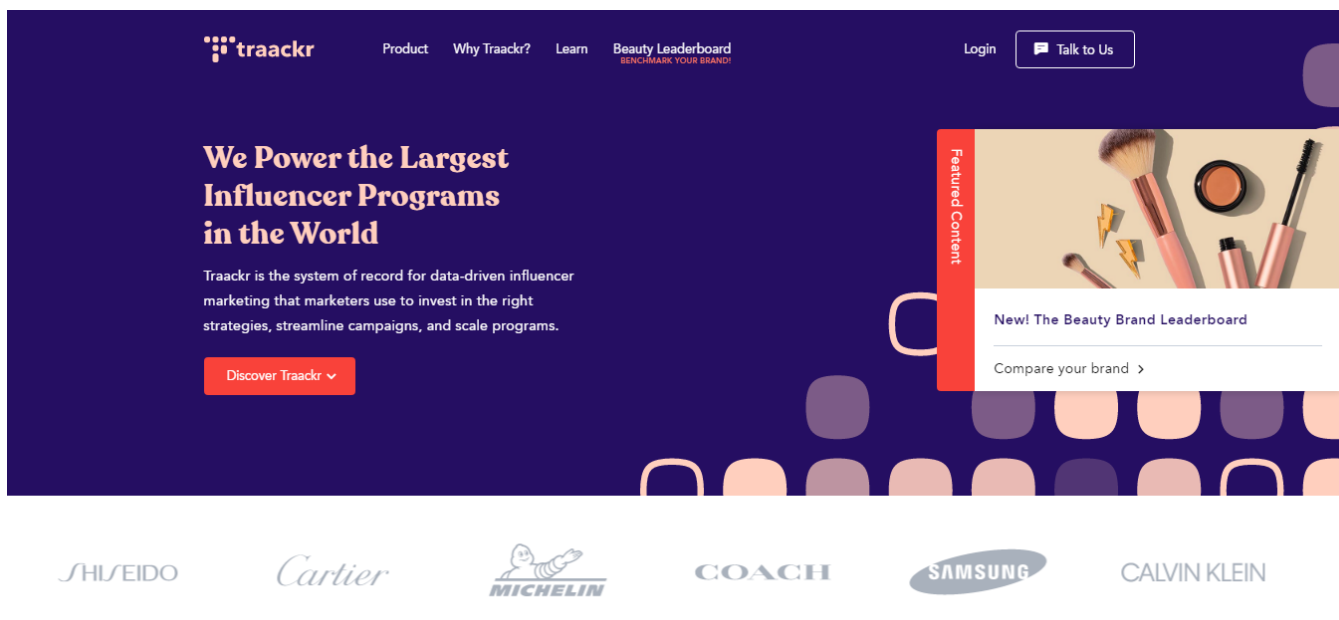

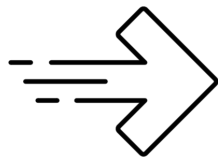

Topic: Business Website

Create a Business Website as similar to **Traackr** but name it as Technophile Bud. Initially you're recommended to opt for creating a basic site using HTML, CSS, jQuery, CSS Grid, and Flexbox, Responsive Design, and other related concepts, It would be more beneficial for you to create an enriching web page. Meanwhile, Bootstrap also allows you to create a responsive blog that can run on different screen sizes conveniently and efficiently.

Site Link is on next Page.

(Refer to this Image as an example!)

TECHNOPHILE BUD
